

On the Subject of Baybayin Words

We don't actually use this alphabet in our country.

The module consists of a display and 6 buttons.

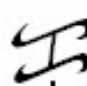

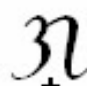

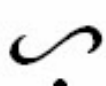

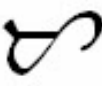

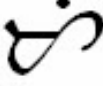

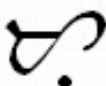

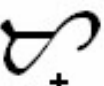

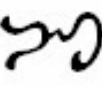

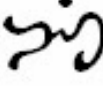

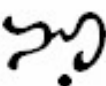

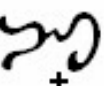

The display shows a Tagalog word that is written in Modern Baybayin Alphabet. Translate the word that is the given display into the English alphabet using the Translation Table and locate the English word that matches the given word. Select the translated word in one of the buttons in the module.

Choosing the wrong word will cause a strike to occur and the module to reset.
